Pressed steel swivel castor, medium heavy duty brackets, with top plate fitting, Wheels with 'Blickle Comfort' two-component solid rubber tyres, with pressed steel rim

Bracket:

Made of heavy pressed steel, with double ball bearing in the swivel head, strong central kingpin, swivel head seals. The special Blickle dynamic riveting process of the swivel head results in minimal swivel head play and smooth rolling characteristics with an increased service life achieved by the work hardening of the ball race grooves. Bolted wheel axle. Zinc-plated, blue-passivated, Cr6-free.

Wheels:

Made of 'Blickle Comfort' two-component solid rubber, with hard rubber core and highly elastic rubber tread, very high operational comfort, low-noise operation, compared to standard solid rubber the operational comfort and the load capacity are increased whereas the rolling resistance is reduced, very good floor preservation.

Tread colours: black

Wheel centre/rim:

Pressed steel rim with tubular steel hub, pressed rim (special shock and impact-resistant design), zinc-plated, blue-passivated, Cr6-free. Tyre pressed with rim.

Wheel centre colour: blue passivated
