

## K-980

Peeling-Enabled Liquid Packaged Vinyl  
Rustproof Protector

Packaging Unit

**Aerosol 420ml/can, 20cans/Box**

### Features

- Application type and one touch spray type are available. Quick drying and easy-to-use.
- Ideal for long-term rustproofing. Strong resistance to corrosion, rust, humidity and moisture.
- Transparent film formed, making internal inspection easy.
- Compared with conventional packaging materials like grease, oil and oiled paper, one-time spray forms film. Easy-to-use and high antirust effects.
- Strong and flexible film formed, making its peeling easy if necessary.

---

### Uses

- Protection and rustproofing of various tools, plastics and moldings.
- Protection and rustproofing of ground or plated surfaces of machinery and parts.
- Protection of various metals during processing.
- Keeping of machinery, equipment and tools.

- Protection and rustproofing of machinery, equipment, parts and tools during marine transportation.
- 

## How to Use

- Clean the dust, oil contents and grease on the metal surface(Using our metal cleaner, they are removed easily).
  - Shake up and down lightly before use.
  - Spray twice or three times to make thick film formed.
  - Spray it about 20~30cm away from target object.
-
