

SR-789

SCALE REMOVER SR-789 (SCALE & RUST REMOVER FOR PIPE LINE)

Packaging Unit • Powder 20kg/Pail
 : • Liquid 20kg

Features

- Excellent exfoliation of calcium phosphate, calcium carbonate and iron oxide.
- Hydrochloric acid and phosphoric acid not contained
- Safe for all kinds of metal, rubber and plastics
- Simultaneous elimination of decreased thermal transfer, current flow decrease and equipment failure caused by scale and corrosion
- NABAKEM SR-789 is ideal for cleaning the scale accumulated in the boiler, cooling water pipe and heat exchanger.
- Used at normal temperature.
- Maximized scale cleaning based on optimal chemical action at 60~70°C.

Uses

NABAKEM SR-789 is ideal for removing the scale, slime and rust generated in the boiler, cooling water pipe and heat exchanger, saving time and energy.

Cautions

- This product is industrial water treatment chemical. Wear protective equipment in handling it.
- Flush contaminated skin with copious quantities of water.
- Do not use empty container for beverage.
